Charts are measured data. Both panels are redrawn from the instrument's own chromatogram and mass spectrum in report SK10-20260903S8207 — no curve is modelled or simulated. **Not determined** marks parameters the supplied LC-MS report does not cover; they are not carried over from any previous batch and are not certified here.

Results relate only to the batch tested, by the stated methods at time of release, and are provided in good faith without warranty — OP Labs does not guarantee the accuracy or completeness of the results.
